

## CALL FOR MANUSCRIPTS

September 2019

Publish your work in *Nursing for Women's Health*, the award-winning clinical practice for nurses working in maternity care, women's health, and neonatal nursing. NWH is currently seeking practice articles and reviews on the following topics. To submit a manuscript or for more information, please refer to our [Guidelines for Authors](#).

### Childbearing

- Antenatal testing today: What, when, and how
- Controversy about oxytocin administration: When, how much, and route
- Devices for induction of labor
- Implications of popular diets during pregnancy
- Preeclampsia
- Pregnancy after bariatric surgery
- Rare conditions in pregnancy (e.g., protein S carrier, Sjogren's syndrome, antiphospholipid antibody syndrome)

### Neonatal

- Current status of fetal surgery
- Genomics and newborn care

### Nursing Care\* for Individuals Who Have/Are:

- Aging
- Incarcerated
- Infertility
- LGBTQ
- Mental health issues
- Substance use disorder
- Traumatized
- Veterans
- Victims of trafficking

*\*across the lifespan including perinatal period*

### Practice of Nursing

- Debriefing of nurses after critical events
- Life in the workplace (e.g., bullying, violence, harassment, incivility, racism)
- Professional practice: Certification and maintenance
- State Maternal Mortality Committees: What are they and what do they do?

### Women's Health

- Cannabidiol (CBD) use and its implications for women's health

- Evolution of the annual well-woman visit
- Mindfulness
- Sleep and women's health
- Social determinants of health
- Updates or reviews of various conditions, including:
  - Autoimmune diseases
  - Bacterial vaginosis
  - Cardiovascular diseases
  - Eating disorders
  - Endometriosis
  - Hypertension
  - Lichen sclerosus
  - Kidney disorders
  - Mental health disorders
  - Migraine
  - Podiatric issues for women
  - Polycystic ovary syndrome
  - Tick-borne diseases and rashes
